Service category	Technical Assistance Provision for the Public Sector
RFI Submission Link	https://forms.office.com/r/u7j3tZxCac

Description of Requirements

The Global Energy Alliance for People and Planet (GEAPP) intends to provide technical assistance to the public sector across 15 African countries, facilitating the swift and efficient deployment of public funds for electrification from the World Bank (WB) and the African Development Bank (AfDB). This initiative also seeks to activate private-sector financing for electrification programs, supporting the ambitious targets announced by the WB and AfDB to electrify 300 million Africans by 2030 during the Spring Meetings in April 2024. GEAPP is a technical partner for the Mission 300 initiative and is availing a Technical Assistance (TA) Accelerator to offer rapid and flexible short-to-medium-term TA resources to accelerate the pace and efficiency of programmatic initiatives targeting electricity access.

The purpose of this Request for Information (RFI) is to gather information from the market to identify potential vendors capable of implementing TA support, including but not limited to the following activities:

- 1. Embedded Support to Government Ministries, Agencies, Departments, and Project Implementation Units:** This includes expertise in procurement, data analysis, and updating sector plans for specific active or planned electrification projects/programs, as well as tariff settings.
- 2. Data Analysis and Related Support:** This encompasses program preparation and design, sector analysis, project monitoring, and creating management dashboards for effective decision-making and oversight.
- 3. Pre-feasibility Studies and Other Feasibility Work:** This involves project preparation, mainly focusing on meeting development banks' environmental and social requirements.
- 4. Transaction Advisory for Projects:** This includes conducting feasibility studies, providing legal advisory services (including PPP advisory and land acquisition), and

structuring equity, local currency, and other blended finance needs to support project financing.

5. **Country-Level Public Participation and Consultations:** This involves engaging the public in policy and regulatory development and formulating strategies to strengthen public institutions and ensure their effectiveness.

Submission

You should submit your response to this RFI electronically at [this link](#) by 9th August 2024 11:59 PM (EAT).

The service provider should provide the following details in the RFI submission:

- Details of the organization or consultant submitting the RFI.
- Provide a list of countries the entity can legally work in in Africa.
- Provide a list of the services offered.
- Provide a statement of suitability.
- Provide a statement of experience.
- Provide a list of reference activities of similar nature.

Please note that this Request for Information (RFI) is for information and planning purposes only and does not constitute a solicitation or an obligation on the part of GEAPP to issue any competitive procurement or award a contract. GEAPP reserves the right to change or cancel this request at any time. It should be noted that submitting a reply to this RFI does not automatically guarantee or obligate GEAPP to invite any firm, organisation or consultant to participate in a subsequent bidding process. Equally, failure to submit a response to this RFI will in no way impact the evaluation of responses to any subsequent Request for Proposals (RFP) or Invitation to Bid (ITB). Responses will be used solely for information and planning purposes.
